

Rangiora New Life School

Covid newsletter # 8 - Third positive case at RNLS

4th March 2022

Kia ora Koutou

I was advised last night that another student was tested positive via a RAT test. the family will be isolating for 10 days.

If you or anyone in your family are symptomatic - I encourage you to get a RAT test pack from the pickup centre by the MainPower Oval in Rangiora.

We respect the privacy of families and do not disclose the identities of positive cases to staff or the community. We encourage families to make contact with their teachers when the students are well enough to engage with school work.

Blessings everyone

Take care and stay safe

Kia tupato, kia haumaru
